

# SPECTRUM OF ANTIBIOTIC ACTIVITY

ST. LOUIS CHILDREN'S HOSPITAL

Antibiotic	GRAM POSITIVE									GRAM NEGATIVE											Atypicals (eg Mycoplas- ma)	Abdominal anaerobes	Oral anaerobes
	MSSA	MRSA	Coag. Neg. Staph	Group A/B Strep	S. pneumoniae	Viridans Strep.	E. faecalis	E. faecium	VRE	H. influenzae/ M. catarrhalis	E. coli	Klebsiella spp.	Proteus spp.	Serratia spp.	Pseudomonas spp.	Acinetobacter spp.	Citrobacter spp.	Enterobacter spp.	Stenotropho- monas spp.				
Penicillin																							
Ampicillin/Amoxicillin																							
Amoxicillin-clavulanate																							
Ampicillin-sulbactam																							
Oxacillin/Nafcillin																							
Piperacillin-tazobactam																							
Cefazolin/Cephalexin																							
Cefoxitin																							
Ceftriaxone																							
Cefdinir																							
Ceftazidime																							
Cefepime																							
Ceftaroline																							
Aztreonam																							
Ertapenem																							
Imipenem																							
Meropenem																							
Levofloxacin																							
Ciprofloxacin																							
Moxifloxacin																							
Gent/Tobra/Amikacin	S	S					S	S	S														
Polymyxin B/Colistin																							
TMP-SMX																							
Clindamycin																							
Vancomycin																							
Linezolid																							
Daptomycin																							
Doxycycline																							
Minocycline																							
Azithromycin																							
Metronidazole
